247LAB

247LAB nasce nel 2021 dall'esperienza decennale di TWENTYFOUR7, azienda dedicata alla progettazione illuminotecnica con estrema attenzione al valore intrinseco del prodotto, in termini di tecnologia, innovazione e customizzazione.

Ogni apparecchio illuminante proposto dalla nuova azienda è frutto di una selezione accurata, conseguenza di un percorso progettuale basato su uno scambio continuo tra progettista e cliente, al quale viene rivolta la massima attenzione.

La luce viene proposta non solo come un valore aggiunto al contesto architettonico nella quale si inserisce, ma soprattutto come accompagnamento narrativo della struttura stessa, alla quale si accorda al fine di esaltare forme e suscitare emozioni.

TWENTYFOUR7

La bellezza della luce nella sua forma più pura.

Twentyfour7 è la nostra collezione tecnica, e prende il nome e l'esperienza dalla nostra azienda storica.

La linearità e la semplicità delle linee contraddistinguono i nostri corpi illuminanti, caratterizzati da un'elevatissima qualità progettuale e costruttiva, nati per adattarsi agli spazi architettonici, mimetizzandosi per esaltare le forme senza diventare protagonisti.

La bellezza della luce nella sua forma più pura.
